

Welcome!

Families with children of nursery age can take part in our project. Expectant parents can take part, too. The project is called "Familien- und Fachkräftebildung in Schwerin" or "Family Education and Specialist Training in Schwerin" – or "FaBi" for short.

This is where you can learn about the early education options that are available to you. Learn how to find a place in a day-care centre for your child. Find out what you need to enrol your child at a school. You will also learn about health, culture and other topics.

Your child can play and learn with other children, too.

Experience together what a day at day-care centre is like.

"Come and join us and learn why early education is important for your child!"
